

TEAM-BUILDING WEEKEND MAY 2010

In May Team Belarus 2010 set off to the RAMC Field Hospital 208

in Liverpool at the invitation of Major Ray Jolly for a team-building weekend with the Army.

The weekend was funded by the Co-operative Membership Communities Fund, organised by Major Jolly and with the help of 4 army volunteers.

the equipment and responding to a series of whistles to walk blindfolded across a car park (that could have been a mine field!).

We all took part in many activities including getting a can of diesel from the middle of a mine field; making the Star of David out of 2 ropes, blindfolded with one of the group shouting instructions to the rest; repairing a flat tyre of a jeep that was the other side of a swamp to

There were many indoor activities as well and these included assembling our camp beds that we were sleeping on for the night. Throughout the night the young people had to take it in turns to do 2 hour shifts patrolling the building.

Our food was supplied by the wonderful Mess Sergeant who set us up with some fantastic meals.

The next day we had a tour of Liverpool including Strawberry Fields, John Lennon's house, Penny Lane and a tour of Anfield.

The whole weekend was brilliantly well organised and run. We came as a group of strangers and returned as Team Belarus.

My thanks goes to:

Major Ray Jolly and his team

The Co-operative Membership Community Fund

And of course

Team Belarus 2010.
